SEO Best Practices

React

Web Development

JavaScript

TypeScript

HTML

Azure Active Directory

WCAG 2.1

Light House/NVDA/JAWS

WAVE

## Languages

English

## Employment History

### .NET Engineer at Von Maur, Inc.

MAY 2022 — PRESENT

- **AI Operational Tool (offline LLM + RAG):** built a fully offline, on prem system for natural language queries over sales/leases data: local language model, embeddings, vector search, policy guarded data access. Implemented in C++/Qt for cross-platform desktop; Produced explainable answers and citations.
- **Accessibility & UX:** implemented aria-controls/expanded states, roving tabindex, live regions; hardened keyboard flows for filters/menus → 100% Lighthouse score for Performance, Accessibility, SEO and Best Practices.
- **DryGoodsUSA re-design:** full redesign (frontend+backend). Delivered QuickShop, Favorites/Wishlist, and product detail optimizations; added server endpoints and caching → checkout funnel conversion improved, page weight reduced by 90%.
- **Social commerce:** set up Instagram Shop integration and product feed compliance; automated feed QA and error surfacing.
- **Secured auth** with Azure AD, OWIN, and MSAL; enforced token lifetimes, roles, and consent policies.
- **Modernized UI stack:** Bootstrap 3 to 5 migration across two production sites; refactored ES5 to ES6+, improved jQuery plugins, replaced grid/utilities, and closed a11y gaps to WCAG 2.1 with WAVE/Lighthouse/NVDA bringing Core Web Vitals up by 90%, a11y issues down by 100%.
- **Image pipeline integration:** integrated Profoto StyleShoots assets into existing catalog workflow; Added validation jobs, fallbacks, and CDN rules allowing faster product onboarding.
- **Legacy acceleration:** ramped on VB.NET/WebForms quickly; Removed hot-path bottlenecks in WPF/ASP.NET and optimized SQL → runtime reduced by 60% on a WPF tool.

### Software Engineer Intern at The YMCA

JANUARY 2022 — MAY 2022

- **Full-Stack Product Modernization:** Updated the flagship product to meet modern browser standards and introduced full CRUD functionality using C# and ASP.NET.
- **Dynamic UI Development:** Built responsive Web Forms using Gridbox, jQuery/JavaScript, HTML, and CSS.

### Data Analyst Intern at Arc of The Quad Cities Area

AUGUST 2021 — JANUARY 2022

- **Data Workflow Automation:** Automated end-to-end data workflows by building Python scripts to scrape, parse, and clean data, and documented SQL processes.
- **Database Performance Optimization:** Optimized critical stored procedures by refactoring with modern SQL practices (e.g., CTEs, indexing).

## Education

### Double Major in Computer Science & Data Analytics

Graduated Summa Cum Laude

Teaching Assistant (Intro to Programming, Web Development)

Azure Fundamentals Certified, AWS Cloud Practitioner Certified
